

Q How do I download Set Dances from the Digital track download page?

A

1. Choose the set dance(s) and speed you would like to order.
2. Once you have chosen all your set dances click on 'Add to Basket'
3. If you require more than one speed for the same set dance you will have to click on 'Add to Basket' at the bottom of the page and then repeat the process for the next speed.
4. You will then be taken to a page where you will have to choose the country you live in.
5. The next page allows you to view the contents of your shopping basket. You can remove any unwanted items, 'Continue shopping' if you would like to buy some more or 'Checkout' if you are finished.
6. The following pages require your contact details and payment details.
7. Once the order is complete you will see a screen that displays the tunes you have bought with a download link. You should right click on 'SAVE TARGET AS' and then save it onto your desktop. This is very important as it allows you to play the tune in any media player (i.e. iTunes) and allows you to save the tune onto CD (must be saved as an audio CD).
8. If you have saved your tune onto iTunes, you can open iTunes, click on the tune you want and save it onto your desktop.
